

## WE'RE THE PROFESSIONALS YOU CAN CALL ON

When you call or visit **Glen Echo**, we'll arrange an appointment for one of our landscape designers to meet with you, discuss your ideas and take the necessary measurements to create a landscape drawing. We'll also show you our portfolio of installations and award winning designs.

When the design is completed, we'll meet with you again at **Glen Echo Garden Centre** to review the design. We'll also show you the plants and materials we recommend for your new landscape.

We'll visit you again on-site to review the final details of the plan and help you make your final selection of materials to be used.

Call us now at 905.584.9973 or 905.677.3140
